

Dreamweaver CS3 Level 2

1 day course

Overview

You have created basic web pages. You may now need to develop professional-looking websites. In this course, you will use the advanced features of Adobe® Dreamweaver® CS3 to design and develop professional-looking websites.

Course Objective

You will develop professional-looking web pages using the Adobe® Dreamweaver® CS3 application.

Target student

This course is designed for students who not only use Adobe Dreamweaver CS3 to design and develop webpages in a WYSIWYG environment, but also have the ability to understand and work with the architecture and coding of web pages. Students are those in small companies or departments within large companies who use web technologies for electronic communication. Some examples of target companies are advertising agencies, marketing agencies, and groups involved in intranet and extranet production.

Prerequisites

Before taking this course, students should have completed the Adobe® Dreamweaver® CS3: Level 1 course or possess equivalent knowledge.
